Engineering News-Record

A Consolidation of Engineering News and Engineering Record

A JOURNAL OF CIVIL ENGINEERING AND CONSTRUCTION

ISSUED WEEKLY

VOLUME LXXXII

January 1 to June 30, 1919

McGRAW-HILL COMPANY, INC.
10TH AVENUE AT 36TH STREET
NEW YORK

ENGINEERING NEWS-RECORD

INDEX TO VOLUME LXXXII

January 1 to June 30, 1919

PAGES

Jan. 2	1	to	70
Jan. 9	71	to	117
Jan. 16	119	to	168
Jan. 23	169	to	213
Jan. 30	215	to	263
Feb. 6	265	to	311
Feb. 13	313	to	355
Feb. 20	357	to	405
Feb. 27	407	to	451
Mar. 6	453	to	499
Mar. 13	501	to	548
Mar. 20	549	to	595
Mar. 27	597	to	645
Apr. 3	647	to	690
Apr. 10	697	to	748
Apr. 17	749	to	797
Apr. 24	799	to	845
May 1	847	to	894
May 8	895	to	943
May 15	945	to	992
May 22	993	to	1040
May 29	1041	to	1088
June 5	1089	to	1138
June 12	1139	to	1186
June 19	1187	to	1238
June 26	1239	to	1286

A

Page

Abbott, H., on wood construction of Charleston port terminal *702
Aberthaw concrete lighters, side launching *555
Abrams, Prof. D. A., on how to design concrete mixtures e752, a*758
On aggregates too coarse in Bureau of Standards test 1147
On surface aggregates or fineness modulus 1203
Abutments, standard bridge, on canal projects (D. C. Willett) *777

ACCIDENTS

And expert checking of engineering plans (J. A. L. Waddell) l1075
Boston molasses-tank collapse n353, *B. S. Brown) e945, *974, (J. A. L. Waddell) l1075
Fire in U. S. Army hospital, Colonia, N. J., 929. (G. H. Tefft) l1177
Launching, men killed at Harriman, Penn. n744
Portland, Ore., grain elevator subsidence, preliminary report on n792
Prevention and compensation laws e502
Railway, reported by Interstate Commerce Commission *185
Accounting, committee analyzes track-elevation costs on Rock Island work in Chicago 83
Equipment at Hog Island; Keeping track of (R. E. Roesler) 246
Acheson, Maj. W. M., on vitrified brick construction for heavy motor-truck traffic... a467
Activated sludge (See Sewage)
Adams, T., on regional and town planning .a1097
Aërator and mixer combined for colloidal water *1210
Aërial cableways successful in Northwest shipyards *37
Wire rope conveyors to feed railways and ships 1158
Aëro-photographic mapping...e993, 996, *1000
Aggregate, see Concrete, Aggregate.
Air currents or Lorelei? (sounds at Huntington Lake, Cal.) l108
Air header, single, supplies 11 drills h202
Air-lift installation, design and tests, Fort Bliss (Capt. J. F. Brown) *1111
Airplanes:
Flying the Atlantic e1090, e1187
Mapmaking from (J. B. Mertie)..e993, 996 also *1000
Materials sold by Aircraft Production Bureau n495
Struts: wrapped, tests of 1170
Air-supply; single air header supplies 11 drills h202
Akron, Ohio, will vote on $3,000,000 sewerage bonds n206
Alaska Railway nearly half completed.... *46
Extended n1281
Service maintained despite icy rails. 442
Snowslides removed by sluicing 1210
Work curtailed n591
Alexander, Col. J. H., biography n*210
Algæ cause taste in Fort Worth water (R. H. Craig) 778
Removal from California canal (E. C. Eaton) *382, e407
Allegheny River bridges at Pittsburgh ordered raised n743
Allen, J. R., on engineering education and Students' Army Training Corps 142
Allen, S. W., with C. H. Teesdale, on rainfall influence on zinc-treated cross-ties.. 234
Alvord, J. W., on engineer in Government housing a147

AMERICAN ASSOCIATION OF ENGINEERS

And Engineering Council n888
Compensation Committee report 1051
Conference, Chicago, adopts wage scale for railroad engineers e597, 612
Convention n1034

Page

Efforts to raise engineers' pay (C. E. Drayer) 1394, (E. A. Van Deusen) 1585, (T. P. Morrissey) 1834
First to adopt joint memberships plan (C. E. Drayer) 1738
Hearing on railroad engineers' pay attended by n688
Licensing committee proposes bill 462
Not entitled to sole credit for raising railroad engineers' pay (E. A. Van Deusen) 1585, e597
Policies outlined by W. H. Finley n448
Seeks better pay for railway engineers.. 295
American Chamber of Commerce, London, G. P. Toby appointed secretary n889
American Concrete Institute, preliminary program of meeting n1035
"Proceedings" of 1918 convention 150
American Concrete Pipe Association meeting 516
Reorganized n689
American Federation of Labor: engineers and draftsmen organizing to join (R. N. Atherton) 1201, (C. E. Drayer) 1394
Opposed to radicalism e1187
American Institute of Chemical Engineers, semi-annual meeting n1181
American Institute of Consulting Engineers elects officers n447
Gives dinner to M. de Billy n889
American Institute of Electrical Engineers, development committee advised by St. Louis electrical engineers 1272
American Institute of Mining and Metallurgical Engineers, fall meeting n1035
To hold joint meeting with Canadian Mining Institute and electrical engineers. .n163
American Library Association, a resource every engineer should know (G. W. Lee)l1079
American Railway Association reorganized.n206
American Railway Engineering Association, convention e501, e598, 606
Nominations n165
American Railway Express Co. trucks, gasoline and electric 902
American Road Builders' Association convention e454, e455, a464, n494
America's legacy, solution of problem of proper distribution of wealth, happiness, education e1042, a1050
American Society for Testing Materials, active discussion expected at meeting..n937
Danger ahead for e751
Four specifications translated into Spanish 152
Joins Engineering Council n259

AMERICAN SOCIETY OF CIVIL ENGINEERS

Annual meeting n160
Coles, Capt. S. L., new assistant secretary n690
Convention in St. Paul-Minneapolis June 1720 ..... n639, plans for, n1034, n1231
Convention, members visit engineering works and attend social affairs n1283
Development committee disappointed by lack of suggestions e598
Report e1187, 1229, n1231, e1240
Should be discussed at Minneapolis... e1090
Discusses Hudson River tunnel e1089
Interest in future of e697
Iowa members take steps to form association n494
Local associations form section development committees e598
Pittsburgh Association and Engineers' Society of Western Pennsylvania confer on coöperation 783
Presidential address, F. S. Curtis 1208
Presidential address, A. N. Talbot a175
Problems before 1154
Progress in organization in 1918 ..... e171
Technical sections, formation suggested by A. N. Talbot a175
To omit lists from "Lists of Members"..e597
American Society of Mechanical Engineers, joint membership plan with Cleveland Engineering Society ..n180, e454, n495, (C. E. Drayer) 1738
Takes over "Engineering Index" n114
American Water-Works Association annual meeting, program n988
Convention e1189, *1193, n1233
Growth e1089
Minnesota Section, annual meeting n988
New York Section, meeting n495
American Welding Society formed n545
American Wood Preservers' Association, to hold convention in St. Louis n67
Americanization Conference program n840
Anchor bolts held in position while concreting footings h*588
Andrews, G. C., on reduction of water consumption in Buffalo a1196
Angle as a beam (R. Fleming) *433
Anthony, G. C., on engineering education and Students' Army Training Corps 43

APPLIANCES

Aërial cableways successful in northwest shipyards *37
Automatic dump skip, single line h*347
Backfilling and digging with one machine n*168

Page

Belt conveyor saves time in unloading cement bags h*396
Bicycle support for end of concrete chute h*346
Cableway carrier, home-made, operates with single hauling line h*443
Car measures correct amounts for concrete mix n*213
Cars with plate racks, in shipbuilding yard h*111
Corner detail makes stripping of forms easy h*203
Derrick, improvised, without usual irons (S. P. Baird) h*540
Device, simple, for removing footing forms h*741
Digging and backfilling with one machine n*168
Ditcher arranged to cut close to obstructions n*748
Dividers, submerged, used on concrete walks 159
Double roller and long board float give superior road finish (S. P. Baird)..h*110
Drill, portable home-made gasoline (C. M. Young) h*741
Dump-bottom truck body for spreading road materials n548
Float, split, for finishing concrete at expansion joints h*934
Freight conveyor between cars and boats, Alton, Ill. *30
Gasket and form for cementing joints in tile pipe n*355
Horse to support steam siphon (G. W. McAlpin) h*111
Movable towers concrete deck of Philadelphia elevated *50
Paver for use in alleys and streets.... n*213
Push plow unloads flat-cars h*1081
Rigid corner frame permits frequent reuse of concrete forms h*541
Safety feet for ladders h*203
Shovel, light-weight, can be converted into crane n*263
Side chute charges wheelbarrow from cement wagon h*540
Single air header supplies 11 drills..... h202
Snatch cable aids teams on steep grades h*1228
Straight-edge, short, with handles for narrow widths (G. W. McAlpin)....h*1279
Straight-edge, split, corrects joint humps in concrete pavement h*63
Strainers, gravel, placed in shell of well.h158
Swing pipe saves hose changes on concrete highway work (H. H. Edwards) h*301
Telescopic pipe carries steam supply to traveling derrick h934
Thawing box reduces cost of winter excavation (L. McL. Hunter) h*254
Trailer shield holds sides of caving ditches in pipe laying h*740
Trench-excavation platform, portable (M. R. Lewis) h*789
Valves, economical nonfreezing type (J. H. Sawkins) h*341
Weed and root grubber on highways (E. E. Glass) h*159
Welding outfit, on home-made truck (E. E. Glass) h*159
Arch dam abutment built before rest of dam *820
Arches:
Analysis by method using variable elastic weights (F. J. Dulude) *471
Concrete, 385-ft. proposed n1182
Reinforced-concrete, largest, designed...n791
Relieving, in subway, distribute stress to piers *667
Timber, 100 ft. long (D. R. Walkinshaw) *775
Arcs, parabolic, comparison of formulas for computing (R. C. Strachan) *325
Argentine-American Chamber of Commerce formed n645
Argentine railways n117
Arizona, highway bond issue for $30,000,000 vetoed n641
New water code (G. E. P. Smith) 1027
Armory, Minneapolis, faulty foundation work causes failure e1043, *1067

ARMY, UNITED STATES

Auxiliary Engineer Corps urged n989
Bases, suggested use as part of free ports e169
Brooklyn supply base..e314, *317, *366, *541, h*589
Hoisting engines used to help trucks up 17% grade h*589
Concrete material hauled by motor truck *366
Camps, 12, sold n988
Charleston, S. C., supply base, wood construction (H. Abbott) *702
Construction Division:
Achievements honored n207
Form of contract defended by General Marshall a175
Officers and work n*208
Should not be included in Public Works Department e896
Work of (G. W. Fuller) e408, 416, 562, *600, (Maj. Gen. W. C. Langfitt) l1076
Eleventh Engineers, Col. W. B. Parsons' address to 1270

*, illustrated; l, letters; e, editorials; h, hints; n, news notes; a, abstracts.

Page

Engineer board to recommend system of national roads.....n1132
Engineer officers, one-third discharged..n745
Rank first in mental tests.....*814
Engineers at front.....e647 (C. E. De Leuw) 656
Not reimbursed for traveling expenses n1132
What they did in war..... 953
Equipment from France to be distributed to states n1281
Motor trucks adapted to many purposes *1052
New Orleans base improves port facilities (G. H. Davis) *823 (M. G. Findley and G. H. Davis) 11077
Norfolk, Va., base, cement gun built walls and roof of warehouses.....*1199
Pile casting and handling...e1139, *1155
Ordnance base depot in France.....*124
Personnel work to be exhibited.....n642
Second Engineers cited.....n590
Trade skill tests applicable in construction a554, e598
Twenty-third Engineers held to repair French roads (W. Bathon)..... 821
Typhoid in Expeditionary Forces (Maj. G. A. Soper)..... 677
War Department will receive bids on cantonments Apr. 15.....n639, n839
Will sell horses and mules..... n65
Ash collection and street-cleaning costs, Cincinnati 1124

ASPHALT

Association formed n1237
Increases staff n1286
Block adapted to war purposes (E. J. Morrison) 131
Paving; neglible year in..... 131
Plant, Los Angeles municipal, costs.... 397
Portland, Ore., operation costs.....1200
Washington, D. C., operation cost....e764
Southern Asphalt Association formed...n1182
Street maintenance, Los Angeles..... 489

Assessment for benefits discussed at New England Water-Works Association convention n591, e549
Associated General Contractors adopt program 669
G. W. Buchholz, secretary.....n398, n449
Associated Highways of America formed..n258
Associations, trade, to have national building in New York.....n942
Augusta, Ga., flood-protection work completed n691
Austin, O. P., on prices yesterday, today and tomorrow 809
Automatic dump skip, single line.....h*347
Auxiliary Engineer Corps urged....n989, n1232
Awning reduces lost time by hiding movements of derrick..h443, (J. J. Dunn)...1586

B

Babcock, D. P., on balancing of highway excavation by semi-graphic method....*361
Backfilling and digging with one machine.n*168
Backwater problems, new method for solution of (H. R. Leach).....*768
Bacteria reduced by filter galleries, Des Moines 1247
Bacteriological tests, numerical interpretation of (M. F. Stein).....*1106
Baird, S. P., on double roller and long board float gives superior road finish.h*110
On improvised derrick without usual irons h*540
Baker, C. W., on Federal Department of Public Works, how should it be organized? 722
On pay and position of railway engineers e216, 228
Baker, I. O., retracts criticism of Chicago paving administration n66
Balanced automatic sluice gate for park dam *1166
Baldwin, A. S., president Western Society of Engineers n308
Baltimore, garbage disposal contract (W. E. Lee) e265, *287
Women water-waste inspectors.....*1105
Bamman, F. C., on garbage during war and after e359, *373
Bankhead National Association meeting...n988
Barges, self-propelled, to be built for New York State Barge Canal.....n839
Barriers, yielding, at drawbridges.....*1168
Bartholomew, H., on selection of industrial site *872
Bartow, Col. E., service in France in charge of water laboratories 331
Bathon, W., on 23rd Engineers held to repair French roads 821
Baths', pressure and pipes' influence effect on water meters.....n767
Baton Rouge, La., unusual well conditions..n691
Bauer & Black factory, Chicago; close sequence of construction operations.....h*62

BEAMS

Angle as a beam (R. Fleming).....*433
Deflections under distributed or concentrated loading (J. B. Kommers)..... *44
Distortional rotation and principle of virtual work (G. N. Linday).....l1073
I-beams retain marks 30 years (R. P. Clave) l*201

Beanfield, Capt. R. McC., on reinforced-concrete swimming tank at Fort Bliss.....*195
Belgium, are American engineers and contractors wanted? e2, 31
Devastation (George B. Ford), e215, *218, (Maj. D. T. Pierce) 627
Bell, G. L., becomes chairman of permanent labor arbitration board.....n405

Page

Bell slots in trench sides made use of narrow elevator possible.....h1128
Belt conveyor saves time in unloading cement bags h*396
Bennett, R., on graphical records of surge pressures in pipe lines.....*1048
Berrien County, Michigan, maintains roads by gang system *526
Bibbins, J. R., on economics of transportation in the Mississippi Valley.....e945, *971
Bicycle support for end of concrete chute.h*346
Big Sioux River, short circuiting floods in (F. C. Shenehon).....*961
Birge, E. A., new president of University of Wisconsin n67
Bishop, F. L., on engineering education... 475
Bishop, H. K., appointed chief engineer, Indiana State Highway Commission....n988
Black, Maj. Gen. W. M., decorated.....*165
Made chairman of Port and Harbors Facilities Commission n403
Blackstead, A. P., on effect of air in centrifugal pump *618
Blaine, E. S., on inspection of drainage ditch cross-sections after contract dredging *1019
Blair, W. P., on drainage system for improved country highways, 1985, 914, (M. H. Downey; with ed. comment) 11080, (M. H. Downey).....l1127
On status of paving brick in 1918..... 132
Blanchard, A. H., on factors influencing selection of road plant.....a1103
On highway transport engineering....a1153
Blanket, lake bottom to stop leaks from reservoir 711
Blast furnace supported while foundation is being replaced (C. W. Lush).....*1123
Blasting concrete mats under building foundations 838
Blatt apartment building, Chicago, cost reduced by concrete mat and columns.....*959
Bloomington, Ind., combined aerator and mixer for colloidal water.....*1210
Blueprints, costs 1065
Bohmann, H. P., on causes of tastes in Milwaukee water, 181, (W. R. Gelston)..1685
Boilers, 45-ton, rolled 21 miles along coast.*772
Bolts, loose, for temporary bridge deck....h789
Bond issues, highway, efficient methods of financing a573
(See also Highways, Bonds)
Bonds, corporate, function of, and how obtained (H. W. Swart).....1212
Bonus payments speed up shaft sinking... 232
Book list for disabled soldiers..... 981
Books, reference, for the engineer (R. Canavan) 578

BOOKS REVIEWED

American Concrete Institute, Proceedings, of 1918 Convention..... 150
"American Highway Engineers' Handbook" 387
"American Methods in Foreign Trade"..... 582
"Analysis and Tests of Rigidly Connected Reinforced-Concrete Frames"..... 979
"Applied Mechanics"..... 582
"Asphalts and Allied Substances"..... 779
"Building Estimators' Reference Book"..1215
"Calculation of Flow in Open Channels (L. E. Houk).....1149
"Chlorination of Water"..... 780
"Conveyance and Distribution of Water for Water-Supply" (reviewed by C. M. Saville) 580
"Cost Accounting"..... 391
"Designing Concrete Mixtures"..... 980
"Efficient Railway Operation".....1125
"Electric Generation and Distribution in Canada".....1217
"Elements of Wood-Ship Construction," Curtis 980
Engineering News Index..... 779
"Engineering Profession, Fifty Years Hence" 151
"Experts in City Government".....1216
"Fighting the Boche Underground"..... 150
"George Westinghouse"..... 390
"Government Ownership of Public Utilities".....1216
"Graphical and Mechanical Computation" (reviewed by R. C. Strachan)..... 388
"Great Hunger, The"..... 781
"Handbook for Highway Engineers"....1216
"Instructor, The—The Man and the Job" 581
"Iron and Steel"..... 781
"Irrigation Engineering"..... 979
"Liquid Steel"..... 582
"Location, Construction and Maintenance of Roads" 151
"Man to Man"..... 581
"Materials of Construction," Johnson's. 579
"Mathematics for Engineers"..... 980
"Methods of Shutting Off Water in Oil and Gas Wells"..... 150
"New Municipal Program".....1216
"Our Cities Awake"..... 388
"Pollution of Boundary Waters".....1216
"Practical Ship Production"..... 781
"Public Utility Rate Fixing" (reviewed by F. P. Stearns) 389
"Relation of Landslides and Glacial Deposits to Reservoir Sites in the San Juan Mountains, Colorado"..... 980
"Results of Municipal Electric Lighting in Massachusetts"..... 391
"Retaining Walls"..... 390
"Rules for the Preparation of Railway Projects" (India)..... 151
"Sewage Disposal"..... 581
"Shipbuilding Industry, The"..... 980
"Storing"..... 389
"Structural Engineers' Handbook," Ketchum 979
"Topographic Stadia Surveying"..... 151
"Vital Statistics".....1216

Page

"Waterproofing Engineering"..... 979
Boston engineers' trade union dinner ("Observer") 1737
Molasses-tank failure....n353, (B. S. Brown) e945, *974, (J. A. L. Waddell) 11075
Raising water main (E. J. Sauer, Jr.) h*254
Society of Civil Engineers, committee on run-off makes progress report..... 152
Bowles, F. T., to leave Emergency Fleet Corporation n305
Box on side of railroad car decreases loading costs (M. Miller) h*985
Boxes, fiber-board, strengthened by edge taping 1271
Bracing eliminated in sheeting octagonal excavation (W. K. Knauff).....h*541
Brackets, safe loads on, diagrams for (F. W. Seidensticker) l*1222
Bradt, S. E., on efficient methods of financing highway bond issues.....a573
Breed, H. E., on long and short highway contracts *831
On calcium-chloride solution and setting of concrete a1258
On testing aggregates for concrete roads.a1102
Brick, Dunn wire-cut-lug brick patents sustained n213
National Manufacturers' Conference....n399
Bridge shops, in fabricated ship construction 16

BRIDGES

Abutments, standard, on canal projects (D. C. Willett) *777
Allegheny River ordered raised n743
Bascule, Buffalo, trouble with.....n1180
Builders report 27% of capacity taken n263, 12% taken.....n499
Chords put on drawbridge carrying traffic.*956
Concrete; accurate costs kept on wartime fee contract (F. Gannett and J. D. Carpenter) *571
And steel span, 385-ft. arch, Willamette River n1182
Base track.....1107
Contract to be let in four parts....*1247
Piles concreted to avoid replacing (F. E. Semon) *766
Reinforced-concrete lift-span towers (F. H. Frankland).....*860
Schenectady, N. Y. *1247
Corrosion, local, causes scrapping of good metal e1043
Delaware River, at Philadelphia, bill passed by New Jersey legislature....n742
Delaware River toll, Pennsylvania and New Jersey to coöperate in purchasing n1035
Dismantle bridge spans for use elsewhere *765
Drawbridge, new chords put on drawbridge carrying traffic *956
Yielding barriers at.....*1168
Engineers; are they losing heads or unit stresses (J. A. L. Waddell), 1155, e122, (W. C. Thomson) 1251, (R. S. Foulds) 1296, (C. E. Fowles) 1345, (J. H. Flynn) 1395, (F. H. Frankland).....l1485
Erection methods applied to erecting long-span roof.....e895, *898
Floors; waterproofing with burlap (A. H. Rhett) 1299
Concrete for steel floor-beams to prevent corrosion (A. B. Tappen).....l1226
Metal scrapped because of local corrosion e1043, (A. P. Tappen) l1226
Loads, equivalent uniform, C. L. Christensen replies to Dr. Steinman.....l1199
Louisville, design of new superstructure with 644-foot span.....e995, *1007
Maintaining traffic during erections *1061, (correction, 1151)
Missouri River, Chicago, Burlington & Quincy R.R., at Kansas City, dismantling *765
Movable, electrical equipment for..... 966
Named for war heroes, at Hutchinson, Kan. 805
Newark Bay, committee to report on site n1085
Niagara arch to be reconstructed for heavier traffic n1131
Omaha track-elevation *380
Over rivers, discussed by Division of Bridges, National Highway Association.n305
Pennsylvania R.R.'s, at Louisville, Ky., design, with 644-foot riveted span e995, *1007, maintaining traffic during erection *1061, (correction, 1151)
Pennsylvania R.R. over Allegheny River at Pittsburgh, raising.....e847, *850
Pittsburgh asks architects' aid in designing n1180
Railway:
Column formula of parabolic type, A. R. E. A. considers.....n545
Concrete trough-slab floor.....l*157
Design loadings and actual engine loads (R. B. Leffler).....*1270
Impact allowances....e454, (J. E. Greiner) 1736, (J. A. L. Waddell)..1786
Louisville, design with 644-foot riveted span e995, *1007
Louisville, maintaining traffic during erection *1061, (correction).....1151
Raising Pennsylvania bridge over Allegheny River at Pittsburgh..e847, *850
Specifications, American Railway Engineering Association, new, drafted by committee and discussed at convention e598, 607
Train loading, standard, proposed conference on n545
Union Pacific at St. Joseph, Mo., moved *530, *567

*, illustrated; l, letters; e, editorials; h, hints; n, news notes; a, abstracts.

Page

Raising, Pennsylvania R.R. bridge over Allegheny River at Pittsburgh..e847, *850
Reinforcement e895, *912
Roumania wants Americans to rebuild...n1281
Riveted-truss span of record length... e995, *1007
Salem, Ore., bridge over Willamette River (L. W. Metzger) *143, criticized (E. Godfrey) 1441
Schenectady, N. Y., long concrete bridge. *1247
Skew spans shifted laterally by jacks on roller blocks (S. A. Snyder)....h*346
Steinman, D. B., replied to by C. L. Christensen, on equivalent uniform loads 1198
Tests, ratio of tensile to compressive unit stress should be increased (R. S. Foulds) e296
Toll, New York State buys two.....n1084
Pennsylvania and New Jersey to co-operate in purchasing.....n1035
Waterproofing floors with burlap (A. H. Rhett) 1299
Willamete River at Salem, Ore. (L. W. Metzger) *143; criticized (E. Godfrey) 1441
At Oregon City, 385-ft. concrete arch proposed n1182
Bristol yard, Merchant Shipbuilding Corporation *557
British Columbia Technical Union formed..n989
British engineering standards..... 151
Ministry of Health, bill for.....n840
Ministry of Ways and Communications proposed n841
Women engineers organize union...863, (Engineer) 1984
Brooklyn Engineers' Club, industrial exhibition e1041
Brown, B. S., on Boston molasses tank failure e945, *974 (see also n353), (J. A. L. Waddell) 11075

Cotten, S. M., designs new type of expansion joint for concrete girders .....•773
Council of National Defense, information gathered by, available n839
Cradock, Va., housing development (S. H. Lea) .....e749, •753
Craig, R. H., on algae cause taste in Fort Worth water 778
Crandall, L., on canal seepage losses affected by temperature e313, •323, (E. C. Murphy and L. Crandall) 1684
Crandell, J. S., on engineering education .. 475
On road maintenance and repair by tar products 132

CRANES

Heavy shop framing for 250-ton traveling crane .....•1172
Jib, designed for maximum clearance ...•1246
Locomotive, new, developed by Terry & Tench Co. n451
Self-propelled, for charging concrete mixer .....n•942
Municipal, St. Paul, Minn., for freight handling .....•1115
Shipbuilding on Great Lakes handled by cranes of many types .....•86
Creosote, coal-tar and water-gas-tar, in treating fence posts (C. H. Teesdale) ...1254
Crowbar, bent, easily removes shale rock (G. W. McAlpin) .....h•159
Crucible Steel Co., plant, Harrison, N. J., erection of long-span roof by rolling trusses to place .....e895, •898
Crusher, gyrator, of record size n1040
Cuba, members of national societies there form association n793
Culverts, reinforced-concrete, under irrigation canal (D. C. Willett) .....•919
Cupper, P. A., on successful operation of Oregon water code 420
Curtis, F. S., new president, American Society of Civil Engineers .....n•160
Presidential address 1208
Curves, assembled, and radii diagram aid in railroad drafting (D. Gerber) .....•664
Compound, railway, general solution of (A. Llano) .....•1070, e1090
Highway, to compute added area on (W. W. Crawford) .....1•738
Cuyahoga River, Ohio, Conservancy District proposed n495
Straightening, at Cleveland ....e749, •763

D

Daily code letter shows status of all highway work, Texas (J. Montgomery) ...1060
Dallas engineers get together, start Engineers' Club n1134

DAMS

Austin, Tex., holds back drift (T. A. Taylor) .....•724
Auxiliary outlet gate relieves main gates (R. C. E. Weber) .....•624
Balanced automatic sluice gate for park dam .....•1166
Brule River, Wisconsin .....•129
Calaveras, slide, what was coefficient of friction? (D. C. Henny) .....1•487
Collapsible, Huerfano River, Colorado, panels of movable weir collapse automatically .....•818
Concrete, closure completed behind needle dam .....•129
Upward pressure test pipes constructed in .....•954
Devil's Gate, California, bids n351, n493
Equipment and material moved through small tunnel .....•681
Gates, balanced automatic, for park dam .....•1166
Gibraltar, California, arch dam abutment built before rest of dam .....•820
Huerfano River, Colorado, collapsible dam, panels of movable weir collapse automatically .....•818
Multiple-arch, record height, at Lake Hodges, California, completed .....•720
Repairing, by old-fashioned methods (C. F. Dingman) .....•517, e597
Skimming, double, eliminates sediment from canals .....•818
Sweetwater enlarged for third time (H. N. Savage) .....•948
Willimantic, Conn., repairing (C. F. Dingman) .....•517, e597
Data file compact and convenient (A. H. Myers) .....1•587
Dauenhauer, E., on stranded, river boat moved and relaunched on rollers .....h•110
Davis, A. P., on engineering education 474
Davis, G. H., on New Orleans Army base •823, (M. G. Findley and G. H. Davis) 11077
Davis, H. A., on measuring concrete consistency by new device •603, (D. A. Abrams) 1836
Davis, W., with G. M. Williams, on two new theories for proportioning concrete, e1139, •1142
Davis, W. A., organization manager, Associated General Contractors n448
Day labor does municipal work at Flint, Mich. 524
Daytona, Fla., sewage; fine screens and chlorine meet Daytona conditions (G. W. Simons) 99
Dean, F. W., article on slow-burning mill construction commended e501

De Billy, M., farewell dinner to, given by consulting engineers n889
Decay of timber in Mexican coastal plains (J. D. Mathews) 631
Decrow, D. A., on "Unaflow" pumping engine .....e1187, •1193
Delaney, J. H., appointed rapid-transit commissioner, New York City n1083
Delaware River, Government will dredge ...n341
De Leuw, C. E., military engineers at front e647, 656
Department of Labor, United States see Labor
Denver & Salt Lake R.R., organization formed to save 989

DEPARTMENT OF PUBLIC WORKS

Auxiliary Engineer Corps n1232
Conference of 74 societies on 1598, n642, ...e849, 853, e896
Construction Division, U. S. A., should not be included e896
No bill this session n398
Government has no policy e453
Establishment proposed e359
How should it be organized? (C. W. Baker) 722
Should not be under military control ..e550
Proposed n304
Would spend over $125,000,000 annually. 737
Department of Transportation, British, proposed n841
Derleth, C. Jr., on engineering education and Students' Army Training Camps ... 140

DERRICKS

Boom lengthened by second boom ..h•1129
Build concrete outlet for Lockington dam, Miami Valley .....•326
Improvised, without usual irons (S. P. (Baird) .....h•540
Stiff-leg, turntable mounting extends reach .....h•638
Tilt and swing long girders between obstructions .....h•837
Traveling, gets steam supply through telescopic pipe h934
Two operated by one engine and crew..h•491
With drop weight, wrecks concrete building h687
Design and cost of concrete-block manholes for pipe sewers (R. A. Koerner) .....•1250
Des Moines, Iowa, relieving arches in subway distribute stress to piers .....•667
Filter galleries reduce bacteria 1247

DETROIT

Grade crossings, eliminating ...e501, •511
Machines cut water-main costs 613
Overhead charge between city departments 587
Votes against buying street railways..n743
Water-filtration experiments e647, 662
Developments in practice of laying and manufacturing paving materials 131
Devil's Gate dam, California, bids n351, n493
Diagrams for safe bracket loads (F. W. Seidensticker) 11232
Digging and backfilling with one machine.n•168
Dikes built to cut off bay, Bull Run Lake reservoir, Oregon, to stop leaks 711
Dingman, C. F., on repairing dam, Willimantic, Conn. .....•517, e597
Dining rooms for industrial plants 981
Director of Inland Waterways, salary ..e993
Distortional rotation and principle of virtual work (G. N. Linday) 11079
Distortional rotation, formula for, Prof. G. A. Swain a864, (G. N. Linday) 11079
Ditch and road work combined on drainage project .....•623
Ditcher arranged to cut close to obstructions .....n•748
Ditches, cost of, for reclaiming Idaho lands (D. W. Cole) 678
Side, elimination from highways (W. P. Blair) e895, 914, (M. H. Downey) 1, with ed. comment, 1080, (M. H. Downey) 11127
Dismantle bridge spans for use elsewhere .•765
Dividers, submerged, used on concrete walks 159
Dock, graving, computation of time to fill (E. E. Halmos) •920 (correction 978)
Municipal, St. Paul, Minn., for freight handling .....•1115
Doors: what is right-hand door? (H. L. Conrad) 1201, (E. M. Buehler) 1485, (T. P. Morrissey) 1636
Dot and dash lines drafted by simple device .....n•1137
Doten, L. S., on Fort Myer sewage-treatment plant .....•244
Double roller and long board float give superior finish (S. P. Baird) .....h•110
Dow, A. W., review of "asphalts and allied substances" 779
Drafting, dot and dash line device .....n•1137
Room, conservation in (J. G. Wishart) .. 921
Draftsmen's and shoemakers' salaries (C. H. McGarry) 1835, (G. F. Schlesinger) 1983
Classed with engineers (A. F. Fowler) ..11277
Deceived in regard to opportunities e1139
Organizing, with engineers (R. N. Atherton) 1201, (C. E. Drayer) 1394
Unions, growth of e1141
Dragline embarked by grounding scow..h•1129

DRAINAGE

Bill, Minnesota senator asks engineers' help in framing 439
Canal system used alternately to irrigate and drain .....•928
Commission proposed for Missouri n495
Ditch and road work combined on project .....•623

•, illustrated; l, letters; e, editorials; h, hints; n, news notes; a, abstracts.

Wages reduced in one industry e994
Will prices and wages drop? e2
Will prices fall? e551
Economics of transportation in the Mississippi Valley (J. R. Bibbins) e945, *971
Edge taping strengthens fiber-board boxes.1271
Edison medal awarded to B. G. Lamme..n1037
Educating public on engineering matters ...e896

EDUCATION

Are engineering educators seizing their greatest opportunity? e121
Broader commercial, for engineers 904
Cincinnati, university of, coöperative course in commercial engineering, n1183, e1188
Class in art for engineers 1154
Colleges should strengthen road-engineering courses (R. L. Morrison) 1054
Colleges to train reserve officers n65
Commercial engineering, at University of Cincinnati n1183, e1188
Conference on "Business Training for Engineers and Engineering Training for Business Men" n937
Cornell may merge engineering schools..n260
Courses in industrial hygiene and medicine 276
Does teaching bring out originality? e95
Engineering and commerce colleges merged Cincinnati University n1183
Educators to meet n1183, e1188
Educators' opinions reflect past and predict future conditions..41, e121, 138
How construction should develop (Prof. L. W. W. Morrow) e801, 827
Engineering, opinions 41, e121, 138, 473
For intelligent industrial production 910
How much for minor engineering positions? e455, (J. M. Goodell) 1482, 1683, (K. P. Armstrong) 1736, (L. Fisher) 1883
Industrial, bill to promote n350
Kansas State Agricultural Department, engineering department, distributes technical information to public e896
Latin and Greek for engineer e896, 930, (G. Paaswell), 11031, (F. H. Clutz) ..l1077
Not best for engineers (R. Hering) l1272
More English, not Latin and Greek (W. G. Raymond) l1176
Progress, lines of, suggested by practicing engineers (J. D. Isaacs, A. P. Davis, V. G. Marani, M. M. O'Shaughnessy, J. S. Crandell, F. L. Bishop, J. A. L. Waddell) 473
Massachusetts Institute of Technology, record number of students n402
Psychological tests for college entrance..e357
Research assistantships at Illinois University n350
Universities should help railway engineers e358, 368
University of Wisconsin; new president, Dr. E. A. Birge n67
Edwards, H. H., on macadam stone treated with deliquescent salts 976
On swing pipe saves hose changes on concrete highway work (H. H. Edwards).h*301
Edwards, L. N., on surface aggregate or fineness modulus for concrete 1203
"Eighty-niners," reunion of n841
Eldridge, H. W., on Hudson River shipyard for concrete car floats *732
Electric drive for warships e123
Equipment for movable bridges 966
Furnace Association organized n797
Power, transmission line with 4801-foot span over St. Lawrence *383, h*396
Street-cleaning vans efficient in England, 771
Truck reduces coal-handling costs n*311
Electrifying railroads in Italy, coal saved by 331
Elevated railways, overhead and time cost to erect (A. P. Roscoe) 1164
Elevator, grain, subsidence, at Portland, Ore.; preliminary report on n792
Eleventh Engineers parade in New York..n937
Addressed by Col. W. B. Parsons 1270
Elimination of dangerous road junction and its cost (E. Gedney) *679
Ellipse, three-centered, construction (B. Silberberg) l*489
Embankment, earth; wire bags hold riprap on h*301

EMERGENCY FLEET CORPORATION

Changes in personnel n936
Inland ship-steel fabricating plants (L. G. Fishach) *332, e358
Plant-disposal section created to sell shipyards n937
Training 350,000 men for shipyards 53

EMPLOYMENT

Agencies, private, upheld (A. G. Frost)..l931
Bureaus and services n204, 256, 304, 348, 398, 446, 493, 543, 544, 590, 688, 742, 790, 839, 888, 936, 987, 1034, 1083, 1130, n1180
Free service to soldiers n742
National Chamber of Commerce urges employment work n639
Service, United States:
Continuation asked by Secretary Wilson n1131
Curtailed n590
Professional Division, opens office n113, n544
Taken over in Chicago by Training Camps Association n590
Engine terminals and roundhouse cost a1059

ENGINEERING

"Activities of Twin Cities," addressed by F. C. Shenehon e1239, 1251
And business interests unite for export trade n499
And industrial research, Gronna bill for, introduced n1131
And popular magazines (C. W. Barber)..l933
British engineering standards 151
Civic Federation proposed (W. L. Saunders) *756
Definition of ("Applied Science") l1277
Educators' opinions reflect past and predict future conditions 41, e121, 138
Enriching literature of e501
Impossibilities e993
Literature, enriching e501
Originality essential to success e895
"Profession of, "why not?" (W. C. Thomson) l1226
Professional, definition of, proposed by license committee of Engineering Council (T. L. Condron) l1079
Proposed definition (E. M. Walker) 1393
Engineering material, packing for export.. 980

ENGINEERING COUNCIL

Acts on engineers' discharge, New York City n205
And American Association of Engineers..n888
And nonmember societies e749, n888
Appoints advisory committee to New York Reconstruction Commission n493
Appoints committee to investigate pay and classification of engineers n936
Appoints licensing committee n349
Calls conference on Public Works Department e598, n642
Compensation Committee progress by ...a1198
Definition of professional engineering proposed by license committee (T. L. Condron) l1079
Hearing on dismissal of New York engineers n163
Hearing on railroad engineers' pay attended by n688
Joined by American Society for Testing Materials n259
National Service and licensing committees n453
National Service Committee, M. O. Leighton n*262
Reports n1235
Organizes National Service Committee..n206
Suggestion to President Wilson about engineer on reconstruction commission (M. S. Parker) 1395
Takes up case of Army engineers not reimbursed for traveling expenses n1132
Urges engineers for reconstruction committees n342
Work of year n447
"Engineering Index," taken over by American Society of Mechanical Engineers n114
Engineering Institute of Canada, annual convention n399
Engineering News; bound volumes given to Bureau of Yards and Docks by H. B. Seaman 1109
Engineering News index completed 779

ENGINEERING NEWS-RECORD

History of, 1, staff 1
Increased postal rates after July 1, west of the Mississippi e1041
Engineering Record; bound volumes given to Bureau of Yards and Docks by H. B. Seaman 1109
Engineering Standards Committee e700, e800
Effect on American Society for Testing Materials e751
Reorganization (E. B. Rosa) e848, 801, 931, e1140, 1154

ENGINEERS

Administrative ability in technical work, e72
American, kidnapped by Chinese bandits, 665
and Italian form association to promote public works n405
and union labor (T. P. Morrissey) 1834, (F. T. Howes) l1078
Architects and Constructors' Conference on National Public Works, on Auxiliary Engineer Corps n1232
Are American engineers and contractors wanted in France and Belgium? e2, 31
Army:
Designated for early return from Europe n67
Not reimbursed for traveling expenses n1132
Officers rank first in mental tests *814
Should not control proposed Public Works Department e550
What they did in war 953
As physical economist (C. P. Keyser) l885
Asked to help in framing drainage bill.. 439
Boston engineers' trade union dinner (Observer) l737
Chicago, opportunities to work together (C. E. Drayer) 328, (F. K. Copeland) .l683
Civilian also served in war (P. H. Norcross) 1393
Class in art for 1154
Commercial education broader 904
Columbus, Ohio, effect close relation with city council n353
Compensation, see Pay
County, in Washington State, bill to take out of politics n351
Dallas, get together, start Engineers' Club n1134
Decline post of transit construction commissioner, New York City e1091
Discharged by Board of Estimate, New York City e72, e73
Duluth, recognize public service responsibilities 440

LAUNCHINGS

Accident at Harriman, Penn....n744
Berth construction and side-launching practice in Great Lakes shipyards....*7
Many on Memorial Day....n1130
Side, of Ohio River boat, speed and list in....*1017
Ways, outshore underwater construction (E. D. Buel)....*1121
Lea, S. H., on using labor-saving machinery at housing development at Cradock, Va....e749, *753
Leach, H. R., on new methods for solution of backwater problems....*768
Leak in subway station stopped by grouting....957
Lee, W. E., on Baltimore garbage will be made into pork....e265, *287
On women water-waste inspectors at Baltimore....*1105
Leetsdale, Penn., ship-steel fabricating plant, Emergency Fleet Corporation (L. G. Fishach)....*332, e358
Leffler, B. R., on railway bridge design loadings and actual engine loads....*1270

LEGISLATION

Arizona $30,000,000 bond issue for highways vetoed....n641
British Ministry of Health, bill for....n840
Bureau of Public Roads, bill raises director's salary....n1132
California Land Settlement Board, money for....n401
Special election to vote on highway bond issue....n1036
Canada, Federal-aid road bill....n689
County engineers, bill to take out of politics....n351
Delaware River bridge bill passed by New Jersey legislature....n742
Drainage bill, Minnesota senator asks engineer's help in framing....439
Employment Service, United States, continuation asked by Secretary Wilson....n1131
Engineering and industrial research, Gronna bill for, introduced....n1131
Federal-aid for highways, bill passed n446, n592 (correction n642)....n1084
Federal-aid road law, proposed modifications....n303
Federal Industrial Relations Commission bill introduced....n1130
Few bills of interest to engineers passed by Congress....n493
Flood-control survey of Colorado River proposed....n401
Highway, appropriations, national....n257
Highway bill, new, introduced in Congress....n446
Bills, six, introduced in Congress in December, 1918....n66
Hudson River vehicle tunnel bills n257, introduced n306, defeated in United States Senate n351, passed in New Jersey....n742
Idaho Government reorganized....n792
Proposed new water law....n257
Illinois bills affecting engineers discussed by Western Society of Engineers....e697
Waterway project bill....n591, 938
Indiana Highway Commission law constitutional....n205
Industrial education, bill to promote....n350
Iowa engineers must register....n841
Registration law, how Iowa engineers got (J. H. Dunlap)....1073
Kansas highways, constitutional amendment for state aid passed....n794
Land reclamation, bill to appropriate $100,000,000....n162

Page

Licensing, see Engineers, Licensing.
Michigan highways, bond issue of $50,000,000 approved by voters....n794
Plans extensive highway improvements n396
Minnesota constitutional amendment for highway trunk system to be submitted to people....e119
Legislature approves bill for highway bond issue....n399
Would reimburse Minnesota contractors for war losses....n398
Missouri, bill proposes waterways and drainage commission....n495
Engineers put on par with lawyers....662
Road bond law declared constitutional....n1131
New York appropriates $1,000,000 for Hudson River vehicle tunnel....n791
Buys two toll bridges....n1081
For cancellation of road contracts and deposit of certified checks with bids....n1081
Highway bond issue vetoed....n1036
Motor trucks removed from personal-property class....n1035
Water-Power Commission bill vetoed n1035
Ohio conservancy act upheld....n210
Oklahoma county engineers obtain better pay....n791
Ontario highways act passed....n840
Oregon passes highway bond issue for $10,000,000....n641
Provides funds for road work....n794
Reclamation bills go to referendum....n745
Pennsylvania, to cooperate with New Jersey in purchase of Delaware River toll bridges....n1035
Postoffice appropriation bill conferees agree upon....n399
Power survey, bills care for....n401
Public health, rural, Lever bill....e316
Works, bills for employment on....n256
Works department bill, none this session....n398
Works, Kenyon, bill for....n204
Questionnaire sent to members of Montreal branch, Engineering Institute of Canada....783
Rivers and harbors bill reported....n67
Roads, national, Army engineer board to recommend system....n1132
St. Lawrence River navigation route to be investigated....n493
Townsend highway bill reintroduced in Congress....n1180
Washington State, appropriates $100,000 for surveys, Columbia irrigation project....n793
Bond issue submitted to vote....n591
Water-power, again before Congress....n1130
Bill should be passed....e313
Water-powers; Congress should unlock....e119
What do you want from your legislature?....e71
Western Society of Engineers studies....783
Leighton, M. O., chairman of National Service Committee of Engineering Council....n*262
Levelman's pay; a correction (R. Reimann) 1253, 1345
Lever, Representative A. F., bill for Federal aid in rural public-health work....e316
Lewis, M. R., on portable trench-excavation platform....h*789
Lewis, N. P., on common sense of civic centers....a1099
On state, city and county road systems should be unit....a465
Lewiston Flat irrigation project; electrically-driven pumps (B. P. Fleming)....*74
Ley, F. T. & Co., find personnel work profitable (editorial interview, C. S. H.)....970
Liability insurance rates high in Wisconsin. 836
License fees, automobile, applied to road building and maintenance....a573
Licensing, see Engineers, Licensing.
Lima, Peru, F. W. Spalding to build waterworks....1099
Limestone rock asphalt produces good mortar (J. R. Nash)....903
Lincoln Highway in Pennsylvania; maintenance....36
Lindenthal, G., proposes New York port scheme....n401
Line revision on Cincinnati Southern R.R. *873
Lippincott, J. B., on unit costs lowered without cutting wages....e597, *605, e697
Little River Drainage District, Missouri, inspection of drainage ditch cross-sections after contract dredging (E. S. Blaine)....*1090
Llano, A., on general solutions of problems in railway compound curves....*1070, e1090
Loading costs decreased by box on side of railroad car (M. Miller)....h*985
Loads, safe, on gussets or brackets (F. W. Seidensticker)....1*1222
Local corrosion causes scrapping of good highway-bridge metal....e1043
Locomotive crane developed by Terry & Tench Co....n451
Logansport, Ind., railway shop erected by traveler....h*302
Long Beach, Calif., operation of fine sewage screens 1012, (correction, 1265.)
Long girders and high columns designed as rigid frame (A. E. Wynn)....*1
Los Angeles, Calif., aqueduct power bonds n1233
Asphalt street maintenance....489
Concrete sewer-pipe specifications....518
Cost of resurfacing street excavations....317
Municipal asphalt plant, costs....30
Wants to sell cement mill....n642
Louisville Engineers' and Architects' Club to draft bill for licensing engineers....n67
Loyal Legion of Loggers and Lumbermen, organization....e1041

* illustrated; l, letters; e, editorials; h, hints; n, news notes; a, abstracts.

LUMBER

Camps, organization of Loyal Legion of Loggers and Lumbermen e1041
Decrease in production in 1918 960
Government will dispose of surplus n260, n591
Italian Government commission buys American lumber 168
West Coast Lumbermen's Association to hold meeting n1286
Wood lots, flood-basin, logged for construction timber h*1178
Lund, C. L., on water-meter practice and testing at Buffalo, N. Y. *1110
Lush, C. W., on supporting blast furnace while replacing foundation *1123
Luten formula used for timber arch bridge 100 ft. long (D. R. Walkinshaw) *775
Lyle, A., on subaqueous tunnel heading under 8 in. of rock cover h*1082

M

Macadam stone treated with deliquescent salts (H. H. Edwards) 976
MacArthur Bros., in $200,000,000 French contract n1231
MacDonald, T. H., appointed engineer in charge Federal-aid road work e647, n*689
Machinery must supplant unskilled labor e1187
MacLean, J. D., with C. H. Teesdale, on wood-block experiments in Minneapolis n*233
Macon, Ga., promotes use of motor trucks n349
Macqueen, P. O., on history and use of easement curves for railroads 924
Magazines, popular, and engineering (C. W. Barber) 1933
Main, Charles T., extract from address to Amer. Soc. Mech. Engineers 82
Maintenance data on twenty-eight sections of test road 670, (B. H. Wait) l984
Deferred, catching up with e895
Malaria control at nitrate plants (W. G. Stromquist) *718
Manganese ore industry, effect of war on 1069
Manhole and sand-trap, corrugated-iron n*1186
Manitoba, drainage commission appointed n260
Mann, Charles R., opinions concerning his report on engineering education, 41, e121, 138
Manning's formula, see Hydraulics, Formulas.

MAPS

Airplane e993, 996, *1000
Contour lines in various colors (L. R. Bowen) l1080
Indexing system for small cities (F. J. Calkins) *965
Mexican border surveyed by engineers of Geological Survey (R. B. Marshall) *235
New projection in map of United States 1109
Of pits and quarries, Illinois, made for bidders on road work *794
Photographic, from the air (J. B. Mertie) e993, 996
Reference, Portland, Ore., made accessible by new numbering (O. E. Stanley) *911
Topographic engineers want completed n888
Topographic, Government should spend $1,000,000 for 933
United States Geological Survey, popularizing e750
Marani, V. G., on engineering education 474
Marble; waste converted into lime n70
Marbles, physical properties 854
Marshall, R. B., on topographic engineers assist in military mapping *235
Marshall, Gen. R. C. Jr., biography n*208
Defends Construction Division's form of contract and advocates league of technical societies a177
Honored at dinner n207
Receives Distinguished Service Medal n400
Marston, Anson, on engineering education and Students' Army Training Corps 141
Massachusetts Institute of Technology, record number of students n402
Masury, A. F., on motor-truck tire maintenance e1239, *1262
Material-Handling Machinery Association formed n117, n213, n405, meeting, n1137, n1238
Material prices halt Chicago building operations (O. M. Fox) 369, (F. F. Vater) 1586
Prices (A. W. Welch) n893
Mathews, J. D., on decay of timber in Mexico 631
Mayell, A. J., on construction problems, Canal St. subway, New York *650
Mayors' and Governors' conference called by President at Washington e453, n493, e501, (F. C. W.) 514, e550.
League proposed n543
Some need education e550
McAdoo, W. G., report on inland waterway navigation for 1918 480
Reviews operation of railways in 1918 ..... a178
McAlpin, G. W., on bent crowbar easily removes shale rock h*159
On short straight-edge with handles *1279
On simple horse to support steam siphon h*111
McCaustland, E. J., on engineering education and Students' Army Training Corps 43
McClintic-Marshall Co., in $200,000,000 French contract n1231
McDougall-Duluth shipyard; workmen encouraged to think 282
McGinnis on finishing of concrete floor 477, (T. P. Morrissey) l636
Mechanical devices help overcome engineer shortage (R. A. Brown) 340, 342
Medal, John Fritz, conferred on General Goethals n1085
Medical inspection in Miami Valley checks influenza *197
Meltzer, J., on how one contractor went about a housing job e1042, *1044
Memorial structures, public works as e169
Mental tests, Army engineer officers rank first in *814
Merchant marine; national association organized n307
Merchant Shipbuilding Corporation, yard at Bristol *557
Yard at Bristol, Penn., routing of fabricated material *25
Mertie, J. B., on present status of photographic mapping from the air e993, 996
Metcalf, L., on effect of war upon waterworks revenues and expenses a1194
Messes, how soldiers were quartered and fed in spruce production camps *105
Meteorological data, additional, needed by engineers (R. E. Horton) 614, e1089

METERS

Compound, study of, made by New York City 930
Venturi, portable, used in Oak Park, Ill., water-waste surveys *829
Water, effect of, influenced by baths, pressure and pipes a767
Niagara Falls, N. Y., to be 100% metered 1094
Practice and testing, Buffalo, N. Y. (C. L. Lund) *1110
Revenue from sale of water to metered domestic consumer (P. Burgess) *1116
Salt Lake City to have more 1114
Metzger, L. W., on Willamette River bridge, at Salem, Ore. *143; criticized (E. Godfrey) l441
Mexican border surveys, by engineers of United States Geological Survey (R. B. Marshall) *235

MIAMI VALLEY FLOOD-PROTECTION WORKS

Act upheld by supreme court n210
Camps self-governed; like commission government e215, 235
Lockington dam; mammoth derricks build concrete outlet *326
Medical inspection checks influenza *197
Not damaged in flood 860
Travelers carry concreting chute and forms for conduit h*588
Winter concreting 618
Wood lots logged for construction timber h*1178
Michigan, chlorination of water-supplies 1199
Highways, bond issue of $50,000,000 approved n794
Plans extensive highway improvements n399
Michigan Engineering Society, annual meeting n306
Microscopic count of sewage bacteria, 196, *1106
Miles acid process, (see Sewage)
Military engineers at front e647, (C. E. De Leuw) 656
Honors for engineer officers n400
Training Camps Association takes over employment work n590
Mill, old Southern, has curious horizontal wheel (H. K. Higgins) *675
Miller, M., on simple device decreases loading cost h*985
Milwaukee; tastes in water-supply (H. P. Bohmann) 181, (W. R. Gelston) l685
To develop harbor n988
Mine shaft on steep slope relined with concrete 1152
Mine shaft 936 ft. deep, sinking and concreting (R. L. Russell) *1259
Minerals mined in 1918, value 345
Mingle, J. G., on brick chimney carried on platform at roof *1069
Mining and Metallurgical Society of America, address, W. R. Ingalls, on "Economic Duty of Engineer" 292
Ministry of Ways and Communications, British, proposed n841
Minneapolis armory, faulty foundation work causes failure e1043, *1067
Engineering activities, address by F. C. Shenehon e1239, 1251
To have largest reinforced-concrete arch n791
Water-supply, filters added and water-softening proposed n793

MINNESOTA

Cities, bill would reimburse contractors for war losses n398
Constitutional amendment for trunk highway system to be submitted to people e119
Drainage control reorganized by new law n987
Educational water-supply campaign 1246
Legislature approves highway bond issue n399
Section, American Water-Works Association, meeting n988
Societies meet in joint sessions n401
Society nearing organization 153
Minute concrete mix subject to doubt (H. A. Davis) 1300
Mirick, G. L.; dinner for, at Boston n163
Mississippi Valley Association of State Highway Departments, Conference on rural concrete roads 482
Raises concrete highway construction standards e946, 955
Mississippi Valley, economics of transportation in (J. R. Bibbins) e945, *971

Road bond law declared constitutional n1131
Engineers on par with lawyers 662
Missouri River water-power studied n1180
Modern methods applied to group house building (S. H. Lea) e749, *753
Moffit, F. H., work in aëro-photographic mapmaking e993, *1000
Mohiman, F. W., and C. E. A. Winslow, on four methods of sewage treatment studied at New Haven testing station a32
Molasses-tank failure, Boston (R. S. Brown e945, *974, (see also n353), (J. A. L. Waddell) *1075
Moline, Ill., poor filter operation accountable for typhoid outbreaks n*1264
Monolithic brick pavement, durability e357, *378
Montgomery, J., on daily code letter shows status of all highway work, Texas 1060
Moore, Prof. H. F. and W. J. Putnam test effect of cold-working and rest on steel a*619
Moore shipyard, San Francisco *283
Morris, C. T., on "Applied Mechanics" 582
Morrison, E. J., on asphalt block adapted to war purposes 131
Morrison, R. L., on colleges should play part in highway program 1054
Morrow, Prof. L. W. W., on engineering teaching e801, 827
Mortar, good, from limestone rock asphalt (J. R. Nash) 903
Silt in, compression tests show effect of 757
Test does not insure good concrete aggregate (C. C. Williams) *1006
Mosquito, eradication reduces malaria at nitrate plants (W. G. Stromquist) *718
Motor sweepers and trucks show economy 969

MOTOR TRUCKS AND VEHICLES

Adopted by teaming company, improve service *1202
And railways; motor trucks needed to supplement, not compete with railways e120
Army, adapted to many purposes *1052
Chart for estimating costs (W. Bigelow) l*1278
Combined detachable body serves several purposes h*1081
Cost of operating in road maintenance in Illinois (B. H. Piepmeier) 1074
Costs, chart for estimating (W. Bigelow) l1278
Costs much higher than generally assumed 438, (E. N. Bryan) 1438
Costs of long-distance haulage in Ohio 717
Effect of, on bituminous surfaces (P. Hubbard) a464
Express route, 100-mile 1115
Express trucks, gasoline and electric 902
Freight distribution by 1011
Gasoline tax on e750
General Motors Corporation to increase plant n892
Government, status of 716
To give 20,000 to states n987
To sell very few n1088
Haul material for Brooklyn Army base *366
Haul properly proportioned concrete batches to mixer h*1032
Highway—motor-truck problem 1107, (C. F. Dingman) l343
Impact tests made by Bureau of Public Roads n939
Increase in traffic, New York State, 1918 326
Macon, Ga., promotes use n349
Needed to supplement, not compete with railways e120
New locations for through truck routes (F. Bache) *298
New York State, motor trucks removed from personal property class n1035
Operate over steep grades on Hetch Hetchy project *40
Postoffice appropriation bill makes provision for experiments n399
Regulation discussed by Highway Traffic Association n259
Requirements, reasonable, discussed at meeting of National Highway Traffic Association n304
Routes as substitutes for branch railway lines e314
Sectional side-dump body for hauling road-repair material n*992
Semi-trailer, new, has collapsible auxiliary wheels n*1088
Short-haul truck and rail shipments 903
Sweepers and trucks show economy 969
Tire maintenance (A. F. Masury) e1239, *1262
Trailer costs, chart for estimating (W. Bigelow) l*1278
Trailer manufacturers reorganize n499, n992
Turntable for, needed (F. C. Beam), 1884, (M. D. Riker) l*1125
Used to inspect water supplies 773
Versus electric railways e799
Wider pavements needed at curves (G. S. Eaton) *461, (C. C. Wiley) l684
Moulton, Prof. H. G., on work for soldiers e357
Moulton, R. H., on tests to free under side of railroad viaducts from smoke 1162
Movable towers concrete deck of Philadelphia elevated *50
Move bridge spans 136 ft. endwise on car trucks *530, *567
Equipment and material for dam through small tunnel *681
Moving pictures by N. C. Johnson show concrete making n350, e1239, *1266
Multiple-arch dam record height, at Lake Hodges, California, completed *720

MUNICIPAL GOVERNMENT, OWNERSHIP, IMPROVEMENTS, ETC., see CITIES

Munoz, Maj. G. C., on handling and storing explosives during war *1242
Murman, R. R., Russia (V. Goriachkovsky) *1033
Muscle Shoals nitrate plants, malaria control (W. G. Stromquist) *718
